

Summer of Adventure Program

The Summer of Adventure Program is about to start. We will be hosting a theme based program for all school aged students entering Kindergarten to grade 8. The program will run Monday-Thursday each week from July 16 to August 9. We will start at 9:00 am and continue until 3:00 pm. Children may attend any or all of the sessions. If the student cannot attend the whole week, they may still attend for the days they are available. If your child is already signed up for the Summer Scholars Program, they may attend the Summer of Adventure Program, and we will have them come during their Summer Scholars time and then rejoin the Adventure Program. Lunch and snacks will be provided for the students. Fun hands-on, theme-based, learning activities, outdoor activities, field trips, STEM activities, community interaction, and technology based learning will be on the schedule.

The themes will be the following:

Week 1 Tall Tales

Week 2 Around the World

Week 3 Sciencology

Week 4 Pioneers

If your child would like to attend the program, please fill out the form below. Please register by **July 9** so supplies can be purchased. Late registration will be permitted if space is available. A minimum of 10 participants are needed to run each program. (Please check all that apply)

____ My child will attend all four weeks of the Summer of Adventure Program.
